

QUESTIONNAIRE

Dear Respondent,

The Blockchain Market Research Agency is conducting a survey to explore an emerging Augmented Reality (AR) empowered toy market in the UK. We would greatly appreciate it if you would “play with us” and answer the below questions to the best of your knowledge and abilities. The Questionnaire should take you at most 10 minutes. No questions require extended answers. **Please, select one answer for each question.**

We thank you very much for your time and cooperation! **Let's go!**

Please note we use the following definitions in the Questionnaire:

- **‘Child (children)’** – your child that lives with you at home or who you regularly take care of.
- **‘Digital device’** – any electronic gadget like a phone, tablet, computer, gaming console and so on.
- **‘Digital technology-based toys’** - physical toys with playing experience enhanced through the use of a digital device. Examples include robots, drones, and internet-connected board games.
- **‘AR-empowered toys’** - a type of digital technology-based toys’ which connects the physical and digital worlds usually through the use of an app. Examples include Hasbro Hero Vision toy, Mattel’s interactive books or LEGO Hidden Site Brick sets)

SECTION A

#	Qualifying Question	Answer Options	Comment
1.	Does your child have access to a digital device independently/with help? Please skip the next Question if you select ‘Yes’.	• Yes • No	If yes, the respondent qualifies. If no, proceed to Question 2.
2.	Do you plan on getting a digital device that your child will have access to independently/with help in the next 30 to 60 days ?	• Yes • No	If yes, the respondent qualifies. If no, exit the Questionnaire.
3.	Can the digital device that your child has/will have access to, be connected to the Internet?	• Yes • No	If yes, the respondent qualifies. If no, exit the Questionnaire.

Comments in red are not to be seen by respondents

SECTION B

#	Main Question	Answer Options
4.	Which digital device does your child has access to independently or with help?	• Smartphone • Computer (laptop or desktop) • Gaming console (e.g., PlayStation, Nintendo Switch, Wii) • Digital technology-based toys (e.g., robots, drones, internet-connected board games) • Virtual Reality Headset • My child has access to more than one of the above devices • Other (please specify)
5.	How often does your child use digital devices independently or with help?	• Never • Almost never • Monthly • Weekly • Daily • Multiple times a day • All the time
6.	What was the main reason for you to give your child access to a digital device?	• Learning • Entertainment • Safety (e.g., staying connected with family) • Other (please specify)
7.	With regard to the past week , please select one digital device that your child spent most time using.	• Smartphone • Computer (laptop or desktop) • Gaming console (e.g., PlayStation, Nintendo Switch, Wii) • Digital technology-based toys (e.g., robots, drones, internet-connected board games) • Virtual Reality Headset • Other (please specify)

Comments in red are not to be seen by respondents

#	Main Question	Answer Options
8.	Prior to this survey , have you ever heard of AR-empowered toys (e.g., Hasbro Hero Vision toy, Mattel's interactive books or LEGO Hidden Site Brick sets)?	• Yes • No • Maybe
9.	Has your child ever asked you to buy an AR-empowered toy (e.g., Hasbro Hero Vision toy, Mattel's interactive books or LEGO Hidden Site Brick sets) for them?	• Yes • No • Maybe
Read the next statement: <i>“If you bought your child a digital technology-based toy, they would most likely ...”</i> In questions 10 to 13, please choose to what extent do you agree or disagree with the suggested endings to the above statement. <i>Recall that digital technology-based toys (including AR-empowered toys) are physical toys with playing experience enhanced through the use of a digital device.</i>		
10.	Enjoy playing the toy as they are very good with technology (e.g., using smartphones, playing games on computers, setting up and navigating other digital devices).	• Strongly disagree • Disagree • Neither agree nor disagree • Agree • Strongly agree
11.	Get excited about the new toy for a short period of time, but then stop playing with it as it is too complicated for them to set up the toy every time they want to play it.	• Strongly disagree • Disagree • Neither agree nor disagree • Agree • Strongly agree
12.	Start to combine playing the digital toy with their physical toy (e.g., a LEGO Brick set which complements a LEGO app, a doll which complements a virtual clothes design game).	• Strongly disagree • Disagree • Neither agree nor disagree • Agree • Strongly agree
13.	Not want to play with it as they haven't had toys like this before and would prefer to play with physical toys.	• Strongly disagree • Disagree • Neither agree nor disagree • Agree • Strongly agree

SECTION C

#	Main Question	Answer Options
<i>There are different characteristics that digital technology-based toys (including AR-empowered toys) possess.</i> In questions 14 to 18, please choose to what extent do you agree or disagree with the suggested statements. <i>Recall that digital technology-based toys (including AR-empowered toys) are physical toys with playing experience enhanced through the use of a digital device.</i>		
14.	The toy must contain an educational element to it to help my child learn some new skills or knowledge while playing.	• Strongly disagree • Disagree • Neither agree nor disagree • Agree • Strongly agree
15.	The toy that my child plays with must be physically safe, so that I wouldn't worry about my child when they play with it unsupervised . For example, no risk of getting an electric shock or device overheating.	• Strongly disagree • Disagree • Neither agree nor disagree • Agree • Strongly agree
16.	There should be no privacy or data safety concerns related to the toy. For example, assurance of the child's geolocation or payment card information being stored securely is required.	• Very unlikely • Unlikely • Neutral • Likely • Very likely
17.	My children should be able to manage the toy themselves, as I may not have time to play with them or help them learn how to play the toy.	• Strongly disagree • Disagree • Neither agree nor disagree • Agree • Strongly agree
18.	The toy must be durable as buying too many toys may be unaffordable to me or simply unjustified.	• Strongly disagree • Disagree • Neither agree nor disagree • Agree • Strongly agree
<i>If your children asked you to buy them a digital technologies-based toy (including AR-empowered toys) would the following factors influence your purchase decision?</i> In questions 16 to 17, please choose how likely the factors are to influence your decision. <i>Recall that digital technology-based toys (including AR-empowered toys) are physical toys with playing experience enhanced through the use of a digital device.</i>

#	Main Question	Answer Options
19.	Suitability for my child's age	• Very unlikely • Unlikely • Neutral • Likely • Very likely
20.	Suitability for my child's gender	• Very unlikely • Unlikely • Neutral • Likely • Very likely
21.	Suitability for my child's race or ethnical background	• Very unlikely • Unlikely • Neutral • Likely • Very likely
22.	Absence of any 'inappropriate aspects' like sex or violence-related pictures or words.	• Very unlikely • Unlikely • Neutral • Likely • Very likely
23.	Social perception and public image of the toy. For example, if the toy is considered to be a 'must-have' in your family/community/amongst your friends.	• Very unlikely • Unlikely • Neutral • Likely • Very likely
24.	How important is a digital technologies-based toy's price in your decision to buy it? Please choose the appropriate degree of importance.	• Very unimportant • Unimportant • Neutral • important • Important • Very important
25.	While doing regular shopping, if your child unexpectedly asked to buy a new digital technologies-based toy, what would be the maximum price that you would be willing to pay for it?	• Up to GBP 10 • GBP 10 – 20 • GBP 20 – 30 • GBP 30 – 50 • Above GBP 50

#	Main Question	Answer Options
26.	If your child asked you to buy a new digital technologies-based toy for their birthday , what would be the maximum price that you would be willing to pay for it?	• Up to GBP 50 • GBP 50 –100 • GBP 100 – 150 • GBP 150 – 200 • GBP 200 – 250 • Above GBP 250
27.	Which company does not specialise on producing toys for children? [This is an attention check question]	• Hasbro • Coca-cola • Mattel

SECTION D

#	Main Question	Answer Options
28.	Think of the most recent digital technologies-based toy you got for your child. How did you make your choice?	• I selected the toy myself after a careful considering its characteristics. • I picked the toy that is most advertised. • We chose the toy together with my child. • My child asked me to buy a specific toy. • I have never bought a digital technologies-based toy for my child.
29.	Would you prefer to buy digital technologies-based toys for your child in-person at a physical retail store or order the toy online? Please assume that the toy's price is fixed and ignore any additional expenses incurred when shopping in-person or online.	• Purchase at a physical retail store • Purchase online
30.	What would be the main reason for you shopping for digital technologies-based toys in-person as opposed to ordering them online?	• Being able to feel the material that the toy is made of to ensure its quality. • Shopping in person is more like an experience or a family tradition.

Comments in red are not to be seen by respondents

#	Main Question	Answer Options
		• My child wants to go to the shop to pick the toy themselves. • I do not trust online stores selling toys. • It is cheaper to shop in-person. This includes the cost of the toy, transportation to the store and so on.
31.	What would be the main reason for you shopping for digital technologies-based toys online as opposed to buying them in person?	• It is much quicker and more efficient. • It is more convenient, especially if the child is too little to behave well in public or spend a lot of time in the shop. • I do not need to deal with my child's unexpected extra toy requests as they can only see the toys that I show them. • It is cheaper to shop online. This includes the cost of the toy, shipping costs and so on. • It is safer to shop online because of the global COVID-19 pandemic.
32.	What kind of stores (physical or online) do you prefer to buy digital technologies-based toys from?	• Physical branded stores (e.g., LEGO store) • Physical multi-brand store (e.g., Hamleys) • Non-toy-specific stores (e.g., Waitrose)

SECTION E IS NOT TO BE SEEN BY RESPONDENTS. IT IS TO BE FILLED IN BY THE BLOCKCHAIN AGENCY.

Answers to the classification questions below will be filled in automatically by the Blockchain Agency based on the respondents' profiles obtained from DRG Global Market Research Agency.

SECTION E

#	Classification Question	Answers Options (only one option to be selected)
33.	What is your age group?	• 18 – 24 years old • 25 – 34 years old • 35 – 44 years old • 45 – 54 years old • 55 – 64 years old
34.	What is your gender?	• Male • Female • Other (please specify)
35.	How many children do you have?	• 1 • 2 • 3 • 4 • More than 4
36.	What is the age of your children? Please list your children's' age starting from the eldest child. If you have two children aged 5 and 6 , your answer should look like this: 6, 5	[List of children's ages]
37.	What is the gender of your children? Please list your children's' gender with the oldest child first. If you have a boy and a girl aged 5 and 6 , respectively, your answer should look like this: girl, boy	[List of children's genders]
38.	Where in the UK do you live?	• East of England • East Midlands • London • North East • North West • Northern Ireland • Scotland • South East • South West • Wales • West Midlands

Comments in red are not to be seen by respondents

#	Classification Question	Answers Options (only one option to be selected)
		- Yorkshire and the Humber - Other (please specify)
39.	What kind of settlement do you live in?	- City (175,000+ population) - Town (7,500 – 174,999 population) - Village and small community (less than 7,500) - Other (please specify)
40.	What is your marital status?	- Married - Widowed - Divorced - In a relationship - Single - Other (please specify)
41.	What is your employment status?	- Ineligible and/or unable to work - Student - Employed part-time - Employed full-time - Self-employed - Retired - Other (please specify)
42.	What is the highest level of education you have achieved?	- High School or below - Bachelor's degree - Master's degree - PhD or higher - Other (please specify)
43.	Which of the following best describes your ethnicity or race?	- White - Asian/Asian British - Black/Black British - Mixed - Other (please specify)
44.	What is your everyday language?	- English - Polish - Panjabi - Urdu - Bengali - Other (please specify)

NOTE:

This Questionnaire will be distributed to 1800 respondents as part of the research. The answers to the questions will be used in the study's quantitative analysis. The questionnaire is divided into five sections and consists of a total of forty-four questions of four types:

- **qualifying questions (3)** to determine if a respondent meets the basic requirements of the Questionnaire,
- **main questions (28)** to collect the desired information on the toys market,
- **attention check question (1)** to ensure that respondents are paying attention to the questions and filter out those respondents who do not put effort into their answers.
- **classification questions (12)** to obtain the respondents' socio-demographic characteristics.

Likert scale-type questions with the same answer categories may be presented in a grid, depending on the final design of the **email** version of the Questionnaire.

The following sources were used to come up with question response categories:

- **Question 38:** HM Treasury, 2020, *Country and regional analysis: guidance*, viewed at 14 April 2022, <https://www.gov.uk/government/statistics/country-and-regional-analysis-2020/country-and-regional-analysis-guidance>
